

ALTITUDE SICKNESS

Rxseboy

Oh God

I'm too high, and I ain't coming down
Not with you around, baby what is that about?
I'm too, too, high, and I can't see the ground
In a cloud of doubt, baby can you hear me now?
You said you won't break the break the fall
But you're the one who brought me up here
I'm too high, oh my, I'm too high

Slow down, my mind keeps goin' round
Should've stayed in with the sober crowd
But she told me it'd be worth it if I trust her
I took the high road, and now I like a pyro
I can't (I can't), I won't (I won't)
She will (She will), I know (I know)
Why am I still actin' surprised?

I'm too high, and I ain't coming down
Not with you around, baby what is that about?
I'm too, too, high, and I can't see the ground
In a cloud of doubt, baby can you hear me now?
You said you won't break the break the fall
But you're the one who brought me up here
I'm too high, oh my, I'm too high

Look in her eyes and see stars
Whole city moving but I swear we in park
Feels like the summer but my phone says March
I'ma vibe till the neurons in my mind go dark

I'm too high, and I ain't coming down
Not with you around, baby what is that about?
I'm too, too, high, and I can't see the ground
In a cloud of doubt, baby can you hear me now?
You said you won't break the break the fall
But you're the one who brought me up here
I'm too high, oh my, I'm too high
