

Caffeine

Rxseboy

I just need some coffee in the morning
No sugar or tea
Cuz I can feel my eyelids falling
They're trying to sleep
But if I take a sip of caffeine
Then surely I'll be awake
Until the evening
Until we go back to sleep

I haven't been to sleep yet
Now I might crash, like the status of a reject
Gotta splash face. That's great, where the keys at?
Work is gonna get mad. Cut me like a c-sec

Don't gotta pretend. I'm really bouta pass out
Throwback, high school, while they letting class out
I was busy sleeping on a desk, with a pen in my hand
Was probably dreaming bout a life that I could never have planned

They told me
If you can stay up, you'll really find a way up
And I ain't never listen til I seen em tryna pay up
I made up, my mind. And now I'm sticking to this coffee
With double shot espresso, you know we gon be poppin

I just need some coffee in the morning
No sugar or tea
Cuz I can feel my eyelids falling
They're trying to sleep
But if I take a sip of caffeine
Then surely I'll be awake
Until the evening
Until we go back to sleep

Up at the crack of dawn
Tired from the night before
I partied all week, with who tho? I ain't really sure
Lifestyle's changing, cuz of everything that's taking place
But I ain't owning up to anything, I gotta break away

From all the dumb stuff I pass by
Messed up again, wait, please don't ask why
Adding to the stress, so I'm taking ahold
Of my soul. I hit the road and hope I'm making home

They told me
If you can stay up, you'll really find a way up
And I ain't never listen til I seen em tryna pay up
I made up, my mind. And now I'm sticking to this coffee
It's probably gon be a problem but sorry, cause I ain't sorry

I just need some coffee in the morning
No sugar or tea
Cuz I can feel my eyelids falling
They're trying to sleep
But if I take a sip of caffeine
Then surely I'll be awake

Until the evening
Until we go back to sleep

I just need some coffee in the morning
No sugar or tea
Cuz I can feel my eyelids falling
They're trying to sleep
But if I take a sip of caffeine
Then surely I'll be awake
Until the evening
Until we go back to sleep
