

Don't move again, just fall asleep with me tonight  
Just fall asleep with me

You're the worst I've had  
But I want you back  
Are you cool with that?  
I can't sleep without you  
I'm an insomniac  
Now all there's left lies in the past

These memories are nightmares  
But they don't even phase me  
My mother thinks I'm lovesick  
The daughter says I'm crazy  
You live inside my bloodstreams  
See you in my daydreams  
But now you're far away from all these worlds that we've created

They're ripping apart at me  
Don't move again, just fall asleep with me tonight  
Just fall asleep with me  
Don't move again, just fall asleep with me tonight  
Just fall asleep with me
