A purebred mastermind  
Talk to you to pass the time  
You say I try to act divine  
God tier status ratified  
I had to fly away, from all ya stress, cuz it just adds to mine  
Got thrown into a padded cell, and now I wanna rap until my min

She said like I don't know I thought my thoughts would just dis  
appear  
I said you're messing with my mind but this might help my caree

She said well baby I don't really understand what you mean  
I said don't worry bout it, just don't hit me back when you lea

Over time I know this happens to me  
A bad situation helps me go and rap to a beat  
I need a plaque on my wall  
Ain't going back to the streets

I got emotionless thoughts
