I-I mean I seriously can't tell you the last time I actually felt like myself

They're confusin'  
I'm a nuisance, yeah  
Huge hit feelin' useless  
Trip to the bathroom look in the mirror  
Ayo, wait a minute bro who's this  
I don't even know myself call it "Dissociation"  
No one else wants to help me through my phases  
Pain I felt, dissipating when I'm faded  
I'm just dissociatin'

Yeah, I hate it  
They be talking to me like I'm really faking  
I forget myself like almost everyday  
It's easy just to walkaway from everything that I've created  
Hear myself up on the radio, I'm convinced it's not me  
People talk about me and then put me in they top 3  
See my name in articles it's hard to offer comprehension  
I can't even talk about these interviews another second (Yeah)  
I'm feeling really different, yeah  
I can't even tell you who I was when all I knew back then was reminiscing, yeah  
Think I lost myself when I was losing vision  
Blurry image of the past, a lot of views on the future  
Boutta get a pack like the cards in a booster  
I cannot react to the clothes in my closet any longer  
I regret ever being a consumer, cuz

They're confusin' (Confusin')  
I'm a nuisance (Nuisance)  
Yeah, huge hit feelin' useless  
Trip to the bathroom look in the mirror (Yeah)  
Ayo, wait a minute bro who's this

Pain I felt, dissipating when I'm faded (When I'm faded)  
I'm just dissociatin'

A little too much (Much)  
Gotta calm down (Down)  
No more drugs in my system for now  
But I know it won't last  
Mind is fragile like glass  
I just need a little bit to help the nonsense pass  
I mean, maybe that is what I'm drawn to  
But you don't never let me call you (Call you)  
Plans made always fall through  
Guess I'ma fall too
