

done with me

Rxseboy

This is for us
No need to fuss
Breaking the trust, we both did
How do we feel so switched?
No, I didn't do what you're thinkin'
I know I created distance
Now I'm sinkin'
Damn, I lost control in an instant
I would be well but I messed up, yeah
Sorry that I didn't listen
It was all innocent, no bad intentions
I know that I lied and I should have done better
To tell you the truth it didn't come to me
It's not my fault, you should really be done with me
But you wanna stay, it's weird
Honestly, you help me face my fears
Honestly, I wanna hate this year
But you made me happy and that's sincere
Past the past, I promise we have fun
Let's just be honest
All the memories that we'll keep forever, we can't let 'em haun
t us
But I wanna make some of those with you
Crazy, it's nice feelin' bulletproof
Get too drunk, I'll hold you up
And look after you like I'm supposed to do
We shouldn't hold back, let's stay together the whole night
Maybe we'll run into snowcaps but we could get over them, no li
e
Come and cuddle up next to me, this is my therapy
Look in your eyes, I see clarity
Her love is real, we're escapin' in parody
Tell you the truth but I'll do what you're darin' me
I don't want nothing except you
I wanna show you that you're fuckin' special
Know that I got you and they want to pressure
And fuck their opinion 'cause you got the best one
