

They say I got it, I do not believe it  
The light it flickerin', makin' me think that someone's creepin'  
They always askin' me, "What are you doin' on your weekends?"  
I tell 'em searchin' for everything that my mind is seekin'  
I got no time for the conversation and awkward statements  
I wanna profit off settin' structure and awesome cadence  
Don't wanna rap about cars I rented  
'Cause maybe I left 'em dented  
Somebody come pay the money, and be respectful  
I would go and write a check, but I don't check the bank  
And every time I go to parties, never check my drink  
I know a pill'll prolly kill me  
But if it don't, I'll be stronger  
I'm takin' doses on doses  
So then the high'll be longer  
I know they'll miss me if I die  
Wanna cry on my shoulder  
I feel my body is colder  
I'm sad it's already over  
I guess I'm gone with the wind  
I'm shootin' up to the stars  
Got homies shootin' up homies  
'Cause they just wanna go far

Ay, they just wanna go far  
Ay, they just wanna go far  
Ay, they just wanna go far  
Ay, and I just wanna go far  
Ay, and he just wanna go far  
Ay, and she just wanna go far  
Ay, we all just wanna go far

Damn  
Far away, maybe I could see the galaxy  
Makin' cool discoveries so everyone get proud of me  
I'ma try the best, so let me tell the other half of me  
Gotta do it big so everybody know what's happenin'  
We had a lot of problems, lot of people losin' faith  
Sorry, I could not relate  
I been feelin' empty space  
I could feel a lot of ways  
Feel the hate, not today  
I'ma leave my body while my mind is somewhere far away  
Far away, never got away  
We been on the case, in the place somewhere far away  
Ay, yeah, homie gettin' paid  
Blue is on the face, we been on the case  
Somewhere far away
