

hit the road

Rxseboy

Let's waste the day away
You hear me when I say
I never knew the feeling of being loved by you
So wait
I know it's getting late
Now I can't concentrate
Your touch it takes my breath so away so stay

Stay with me a little longer 'fore we break it off
I know you love me this is something I wouldn't trade it up
We got a past I know it's tragic we can take it back
We're at the end but honestly girl I don't hate the fact
That we gave it a good try, it's warming my heart
But the day that you gon' leave me girl it tears me apart
I got used to having you so close in my arms
Nowadays when you got close to me I sound an alarm

Oh why you say that you don't know
Tell me where you wanna go
We could hit the road oh
Oh why you say that you don't know
Tell me where you wanna go
We could hit the road oh

Let's waste the day away
You hear me when I say
I never knew the feeling of being loved by you
So stay

But if you really wanna leave you know I'll never blame you
You always hurt so hard to reach like you're my operator
Took a piece of me when you're the one that needed saving
Would you sneak in for your sake, come with an explanation
'Cause there's always bumps on this road
But now I got no hand to hold
Take your chance look where it took me
Baby you're rookie
C'mon let's-

Oh why you say that you don't know
Tell me where you wanna go
We could hit the road oh
Oh why you say that you don't know
Tell me where you wanna go
We could hit the road oh

Let's waste the day away
You hear me when I say
I never knew the feeling of being loved by you
So stay

Oh why you say that you don't know
Tell me where you wanna go
We could hit the road oh
Oh why you say that you don't know
Tell me where you wanna go
We could hit the road oh
