

Everybody gotta JanSport  
Why your music out of fans, boy  
I be whippin' in a damn Ford  
Fame is what I gotta plan for  
Like the Migos I'ma take off  
Hopin' this is gonna pay off  
Goin' hard I gotta play soft  
Workin' toward a 50K watch

They say I'm outta control  
I been there and done it, I'm back on a roll  
I'm gettin' this money and stackin' the dough  
I eat up the carrots and bag up the gold  
Yeah, I don't waste none of my time  
I see it, I want it, I buy it, it's mine  
I rose to the top and I'm livin' divine  
You might get your [?] if you peek through the vines

I don't represent what they recommend  
Keep the money fallin' like it never ends  
Say she doesn't want me, I'm a better friend  
Tellin' me to make it well it all depends  
I fell in love, and it took away from that music life  
That was when I wasn't doin' right  
Now this music thing is do or die, like

Switchin' up, like a fake friend  
Only highlights, like I'm Rae Sremm  
Yeah, I helped a couple homies pay rent  
And I finally made it out the basement  
I been writin' verses, never ridin' dirty  
Shoutout every girl that ever tried to curb me  
Yeah, I got a new one, and she curvy  
I been livin' sturdy, I ain't never swervin'  
Always A-plus, never takin' L's  
They be takin' drugs that I used to sell  
Then I cut the wire, 'cause I got the wealth  
I ain't never tryna go and visit hell  
They gon' pop a xan, they 'gon pop a perc  
Just to calm it down, but it doesn't work  
Now it's in the culture, leave it in the dirt  
It's already dead, leave it in a hearse

Wow, look at that  
My exes come back like a boomerang  
And all of that money is cool to gain  
Soon enough I'ma be new to fame  
But I will never get a ego  
Say they ridin' clean, but they baggin' kilos

Homies gettin' lost, now they findin' Nemo
