

Let's Get It

Rxseboy

I been feelin' myself like a massage
Been blowing my cash living too large
When I show up to the club with my entourage
My drip drip drop like a carwash

Got my eyes on one or 2 ting tings
Gonna lock that up like sing sing
Time is money and I make it go Chi ching

Let's get it
Let's get it
Let's get it
Let's get it
Time is money and I make it go Chi ching
Let's get it

Big bag when I make an appearance
On rodeo you be shopping in clearance
What's that sound? Wait a sec can you hear it?
Yea I can what's that? That's a stadium cheering

I get money in Tokyo
I get money in Paris
I get money round the world
I might retire my parents
And I got new drip
Don't know how many karats
But yo my neck real heavy
Like I'm wearing a Ferris

All these blinding lights, got me shining bright, got no time for impatience
I wanna vibe tonight, popping like dynamite, we moving deep like migration

Never gon stop, so let's keep this motion
Twenty more rounds, and my body's floating
Little bit drunk, I think you should know
That my drip drip drop til I'm overflowing

I ain't tryna fit in I'm an outlaw
You don't like what I do then fuck off
I'm a bitch that's hotter than hot sauce
Gonna pop pop bottles like a rockstar

Got my eyes on one or 2 ting tings
Gonna lock that up like sing sing
Time is money and I make it go Chi ching

Let's get it
Let's get it
Let's get it
Let's get it
Time is money and I make it go Chi ching
Let's get it
