

needs and wants

Rxseboy

Do I want it, Do I need it?
Stab me in the back until my body steady bleeding
Say you hit my heart well that's a start
But I'm still breathing
Say you glued to being single
So you always stick to leaving
Do I need it, do I want it?
Giving me the chills like I been haunted
Said you had it
So you brought it
I'm astonished
I should really make a profit
Told you I would never break a promise
But I broke it
That was what we never wanted

Ah dude, c'mon
Does this really gonna do this again?
Dude
Okay

Getting loaded
Everything getting loaded
Tell me if you can feel it
The feeling is overflowing
Easy to say we stopping
It's harder to keep the motion
We forcing what shouldn't happen
Imagine we weren't broken
You got some blood on your hands
A lot of glass on the floor
You said you wanted to leave
I knew I wanted it more
I thought I needed you most
I started seeing the signs
I told myself it was hell
And then I left it behind

Do I want it, Do I need it?
Stab me in the back until my body steady bleeding
Say you hit my heart well that's a start
But I'm still breathing
Say you glued to being single
So you always stick to leaving
Do I need it, do I want it?
Giving me the chills like I been haunted
Said you had it
So you brought it
I'm astonished
I should really make a profit
Told you I would never break a promise
But I broke it
That was what we never wanted
