

Thunderstorms

Rxseboy

Then stay around for a while
You stay around for a while
You tell me what you won't find
I'll stay and watch your smile

I can walk through thunderstorms
Thunderstorms yeah
And I won't turn back for nothing
I think I'm tryna make you proud
(I think I'm tryna make your proud)

Then stay around for a while
You stay around for a while
You tell me what you won't find
I'll stay and watch your smile

Yeah
Hours a time, I could watch you like a movie
And I don't ever worry cus your smile really soothes me
You could come over, we could kick it like I'm Bruce Lee
And we could get cozy while the thunderstorm is boomin
I am not generic yeah I'm nothing like these other guys
I could take a rainy day and turn it into summertime
We in this forever I ain't looking for another try
You dripping too hard baby girl I ain't gunna lie
Say I'm too clever, cute pic new header
If your really at the top, I could never do better
I don't wanna do better, cherish all the bad weather
Hurricanes turned to rainbows the day that I met her

Then stay around for a while
You stay around for a while
You tell me what you won't find
I'll stay and watch your smile

Then stay around for a while
You stay around for a while
You tell me what you won't find
I'll stay and watch your smile
