

used to make you happy

Rxseboy

Used to make you happy
You said that I should stay
But if I said I loved you
Would you say it back

I used to make you happy
We used to dance around the playground, was always laughing
Then one day you ain't come to school
Probably got caught in traffic
Then weeks passed and it was time that I start taking action
Was asking teachers where you were
Heck, my mom and yours were family friends
Like did you move away or maybe it was something I said
Well I'll apologize, but never can if I don't ever see you again
n
And I don't think I'll ever see you again

Used to make you happy
You said that I should stay
But if I said I loved you
Would you say it back

Now it's been ten years
I feel like I'm the same guy
But I still tend to think about the girl inside my past life
I'm all grown up, but on occasions start to ask why
I never found love, and that's because it passed by
I used to make you happy
We used to dance around the playground, was always laughing
Then one day you ain't come to school
I knew that something happened
Oh, damn, in loving memory of Shelby Ray that's fucking tragic
