

**yours**

**Rxseboy**

I could be yours, you could be mine  
That's not the way things go most of the time  
And you said you loved me if that was a lie  
I'd rather make this work than leave them behind  
I could be yours, you could be mine  
I wish I was yours but you'll never be mine  
Never be, never be, never be mine
