

A Thousand Knives

Ry x

I lay you down right here in the shadows
I watched over you
I prayed for your breath right here in the shallows
I watched over you

Like a thousand knives
Like a thousand knives
Like a thousand knives
Like a thousand knives

I begin to move in slow
Better fall to make you float
Highten me, a quarter low
Nights in circles

I lay you down right here in the shadows
I watched over you
I prayed for your breath right here in the shallows
I watched over you

Like a thousand knives
Like a thousand knives
Like a thousand knives
Like a thousand knives

Knives
Knives
Like a thousand knives
Knives

Knives
Knives
