

All In Words

Ry x

Come on
We start again
Heart crush done
We'll fade to mend

I know you wanna stay
I know you are
The fold lines in your face
Were pretty far

Put it all in words, put it all in words
Put it all in yearning
Let it all unfold, let it all unfold
Let it all keep burning

Come on
We'll try again
The heartlines won
A pain to mend

I know you wanna stay
I know you are
The fold lines in your face
Our bodies cry

Put it all in words, put it all in words
Put it all in yearning
Let it all unfold, let it all unfold
Let it all keep burning
Say it out before, say it out before
Set it out from burning
Let it all unfold, let it all unfold
Let it all do learning

Come on
We start again
Heart crush done
We'll fade to mend
