

Deliverance

Ry x

I been crawling up inside your lungs
Feeling up your mind with my tongue
I didn't need to know but I need to run
Tonight we roll, we lock we lunge

I've been awake for deliverance
Deliverance deliver me
I've been awake for deliverance
Deliverance deliver me

Rolling up behind with gloves on
Ready for your bite to be strong
We didn't have before what might have got us stung
Tonight we roll, we lock we lunge

I've been awake for deliverance
Deliverance deliver me
I've been awake for deliverance
Deliverance deliver me
