

How Could You Say

Ry x

All these seasons passing me by
But I know it's not my time
Taking chances with my love
Well, I know it's not my style

How could you say this is easy?
When this is playing with my heart
How could you say this is easy than me?

Love, love, love, heart
Love, love, love

Days go by quickly now
But the nights, they take so long
Through it all, you were the one
But I know it's not my time

How could you say this is easy?
When this is playing with my heart
How could you say this is easy?
When this is tearing me apart

How could you say? Tears all over my face
How could you say? Now I'm walking away
How could you say?

You've got to feel the moment
You've got to let it go now
You've got to be emotional
'Cause we can't let this end, no
I know I've lost the feeling
But I know that I'll never let you go

Oh, my lips, you left with love
But I know it's not my time

How could you say this is easy?
When this is playing with my heart
How could you say this is easy?
When this is tearing me apart

How could you say? Tears all over my face
How could you say? Now I'm walking away
How could you say? Ooh, oh-no-no
Yeah, yeah-yeah
How could you say? No, no
How could you say? Oh, oh-ooh

Oh, my lips, you left with love
But I know it's not my time
