

Moths

Ry x

How did you notice?
My heart is reaching again
Deep in these waters
Heavy like moths to your flame
How can you hold yourself?
Steady like time into fate
Meanwhile, I'm burning
Falling like moths to your flame

In the folds, in the light
A pulse in your body
Cold in your eyes
I can't hold back
Storm in the nighttime
Holding your body soft

How did you notice?
My heart is reaching again
Deep in these waters
Heavy like moths to the flame
How can you hold yourself?
Steady like time into fate
Meanwhile, I'm burning
Falling like moths to your flame

Loose in the light
Saddening my mind
Holding divine
I'll melt undone
Stone into violet
Held in your eyelid soft

How did you notice?
My heart is reaching again
Deep in these waters
Heavy like moths to the flame
How can you hold yourself?
Steady like time into fate
Meanwhile, I'm yearning
Falling like moths to your flame

Falling like moths to your flame
Falling like moths to your flame
