

# Vampires

Ry x

I am the salt  
You called me out  
Lost in the dark  
I fought your love  
But I want love

Yeah our love is followed  
By vampires and cold blood

I think I melted  
And made me love you  
Sinister heart  
And naked thrills  
Now make your kill

Yeah our love is followed  
By vampires and cold blood
