Visions

Ry x

Come on, the visions
Come all the away
We got the feelings
Inside our veins

Tell me what you want
When you're caught inside
Tell me what you want
When you hold the light
Tell me what you want
When you hold the light
Tell me what you want
When you hold the light

When you're caught inside
When you're caught inside

Come on, the feedings
Come all the way
Just all the feelings
Breath in my name

Tell me what you want
When you're caught inside
Tell me what you want
When you hold the light
Tell me what you want
Can you [?]
Tell me what you want
When you're caught inside
When you're caught inside
