

You

Ry x

Woke up falling
Press into your side
Your body's an ocean
Pull me into your tides

All I see is you
All I see is you
All I see is you
All I see is you

All I see is you
All I see is you
In everything I do
All I see is you

Fall in deeper
Melt beneath your skin
Your breath tied against me
How do I breathe you in

All I see is you
All I see is you
All I see is you
All I see is you

All I see is you
All I see is you
In everything I do
All I see is you

All I see is you
All I see is you
In everything I do
All I see is you
