

## Your Love

Ry x

I couldn't help the feelings  
Cornered in the fading light  
Underneath your weight here  
Falling in your haunted eyes

Your love, your love, your love, your love  
Your love, your love  
I've had enough  
Your love, your love, your love, your love  
Your love, your love  
Running out of time

You know the places  
Holding me against you tight  
Underneath the table  
Falling as I caught your eye

Your love, your love, your love, your love  
Your love, your love  
I've had enough  
Your love, your love, your love, your love  
Your love, your love  
Running out of time

Your love, your love, your love, your love  
Your love, your love  
I've had enough  
Your love, your love, your love, your love  
Your love, your love  
Running out of time  
We're running out of time

Your love, your love, your love, your love  
Your love, your love  
Your love, your love, your love, your love  
Your love, your love
