

# About Time

Ryan Adams

I don't understand  
It's the way I feel  
Just the way I think

Sometimes it gets too real

I'll stay a little too late  
Past the point when I should've walked away

It's about time  
About time I get it right  
About time  
About time I get it right

Carrying a lot around with me these days  
I'm bad with question marks  
Ten tons and piling up  
Feels like an accident  
Like I just walked out of frame  
Can't find my way back  
Back into the pitch

I'll stay a little too late  
Past the point when I should've walked away

It's about time  
About time you get it right  
About time  
About time I get it right  
It's about time  
About time I get it right  
About time  
About time I get it right  
Right
