Am I Safe

Ryan Adams

All these things keep running through my mind
Everyone and everything I left behind
Standing in the cold great dark
Watching cars go by
And all these things keep running
Through my mind

Am I safe? Am I safe?
Am I safe?
If I don't wanna be with you

Every day my part seems like a stone
Carries me away into the undertone
Like a bottom, there's no air
There's no sound, no light
And all these things keep running
Through my mind

Am I safe? Am I safe?
Am I safe? If I don't wanna be with you
Am I safe? Am I safe?
Am I safe? If I don't wanna be with you

On my way back on my sea of part over
Close my eyes
What if there was nothing
It's complicated
I just don't love you anymore
I just wanna sit here and watch it burn
Sit and watch it burn

Sitting look at someone through the world
Running from myself like when I was in???
Pictures in on the wall, when we used to smile
All these things keep running
Through my mind

Am I safe? Am I safe?
Am I safe? If I don't wanna be with you
Am I safe? Am I safe?
Am I safe? If I don't wanna be with you
If I don't wanna be with you
