

Big Colors

Ryan Adams

I'm so sorry but it's time to go
And we both know
I'm only dreaming in big colors now
Live in a world that isn't upside down

So where do we go
Where do we go from here
Where do we go
Where do we go from here

Since I've known you, all the things we've seen
And the places we've been are gone
I'm just dreaming in big colors now
Loading my brushes with this love I've found

So where do we go
Where do we go from here
Where do we go
Where do we go from here

Where do we go
No reason to know
We just go up

The brightest colors always rising to the top

With no fear and only hope
Where do we go

Where do we go
From here

Where do we go
From here

The brightest colors always rising to the top
