

Broken Pride

Ryan Adams

What is the fucking darkness
Sin surrounds your heart
[?] Your pleasure
Is your pain disguised
Well I'm sick of it
And I'm sick of the lies
Cause I'll find a way to your soul
And I'll burn it alive

Listen to the fission [?]
Break into the glass
I see your future
I see your past
I try to tell you the future
I try to tell you it's gone
You try to tell me anything
But you will never be loved
