

Call Me Back

Ryan Adams

I like her, I like her a lot
I'm not sure
Not sure
Not sure
I got what she needs
But I like her a lot

I buy her flowers
But the flowers, they grew on the side of a hill
'Til somebody picked them
So i would buy them off for you
They're so pretty
They're only pretty
'Til they die

All of these people I have chosen to love
I only let down
And you ain't been nothing but kind to me

If you called me
Call me back
I'll come over
But I'm not
Coming over
And you're not going
To call me back, oh God

I like her
I like her a lot
She spells "No Way" out for me
I only read when I'm alone
I'm alone a lot
With all these books
I don't read

I don't got
I don't got what she needs
To last us any longer
Than a kiss is meant to be
When they kiss you goodbye
And your mouth starts to bleed

All of these people I have chosen to love
I only let down
And you ain't been nothing but kind to me

If you would call me back
Call me back
I'd come over

If you would call me
I'd come over
I swear

If you would call me back
Call me back
I'd come over

I'm not coming over
And you're not gonna call me back
You're not gonna call me back
Oh God
