

# Change Your Mind

Ryan Adams

Look at the sunset as it fades away  
Staring at the ground with nothing to say  
Restless all night, restless all day  
As we stare into past, it's nothing anyway

If I could change, if I could change your mind  
If I could change, if I could change your mind  
If I could change, if I could change your mind  
It would make you mine, make you mine

Look for a reason but it's already done  
Wanna tell the future but it feels so dumb  
Kneel beside your bed, on your knees to pray  
Stare into the void, we're falling anyway

If I could change, if I could change your mind  
If I could change, if I could change your mind  
If I could change, if I could change your mind  
Make you mine, make you mine

If I could change  
If I could change your mind  
Change your mind, change your mind  
Change your mind
