

## Darkness

Ryan Adams

Darkness

There's a darkness in the way  
A darkness in the night  
A darkness in the day

Darkness

Oh I know you well  
You move in my soul  
These places that I dwell

So let me count the ways  
As it moves through my eyes  
There's a darkness in these days  
A darkness under my eyes

Let me count the ways  
As I step into the light  
There's a darkness in the day  
In the California light

There's a darkness in the way

Darkness

I know you so well  
You always call my name  
As I whisper to myself  
Darkness  
Where you gonna stay?  
As I'm moving through this life  
Cast shadows on the waves

And I count the ways  
You're comin in all the time  
And the birds on the bay  
On the darkness of the night  
Let me count the ways  
As I step in from the light  
There's a darkness in the day  
And a darkness in the night  
The California light
