

Defenders of the Galaxy

Ryan Adams

In fields of radiation
Begin the war
Defend the galaxy
Metallic spiders swarm
Against the armies we fight to survive
Armies of evil intercepted in time
10000 ships for every one we can find
To die in battle is to die with our honor
All systems go
Two planets
Are down
The atmosphere goes black
As coal pods of our women
And our children have gone
Home is our battleground
The war of all time has begun
Fight to survive
With your honor
The war of all time
