Dive

Ryan Adams

I swim at night
My head is underwater
I'm frightened

Feel it in my bones as I dive
Diving down

Street so empty
Walking to your side
I see lights they flicker
And the night take me closer
I just want to hide with you

'Cause all they want is what they got
Yeah, we could've told them that
If all they want is what they got
Yeah, you can live without it

See you when you are, held me close
Hand is in my hand as we coast
See the boulevard and the street
Crumble at your feet

My bones untie
I can feel a small electric fire
Burning in my heart
It's so loud I can barely hear the light

And all they want is what they got
Well, we could've told them that
If all they want is what they got
Well, I could've told them that

Someplace by my side
As I dive
Someplace at my side
Mmm, as I dive

If all they want is what they got
Well, we could've told them that
If all they got is what they got
Well, you can let 'em have it

Someplace as I dive
Dive
Dive
Oh, into the water
You right by my side
