

## Fire and Ice

Ryan Adams

Over the rainbow  
Beyond the land of time  
Nuclear warheads  
Get disassembled by baby lions  
Black mountains arise  
Arise  
White fire  
Shining in their eyes  
Some place above the stars  
In black cities  
Reflecting the soul wave  
Oh the angels have mercy  
Black mountains arise  
Rise  
White fire  
Shining in their eyes  
How much longer will they let us survive  
All the weapons pointed at us as we die  
Either way only the sun will survive  
Either way only the sun will survive  
Fire and ice  
Fire and ice  
Fire oh oh  
Fire and ice  
Fire and ice  
Fire oh oh
