I Was Here

Ryan Adams

I wrote my name up on the wall of shame
I left my number, no-one called
I bought my ticket to get out of this place
Screaming "I was here"

I don't wanna be alone
There's just something about you
I hear your voice over the phone
Nobody makes me feel like you do

I wrote my name up on the wall of shame
I left my number, no-one called
I bought my ticket to get out of this place
Screaming "I was here"

I don't wanna make you cry
There's just something about me
You know I love you all the time
Nobody makes me try like you do

I left my number on the wall of shame
I left my number, no-one called
I bought my ticket to get out of this place
Screaming "I was here"
Screaming "I was here"
Screaming "I was here"
After all
After all
After all
After all
After all
I was here
After all
