

## In My Time of Need

Ryan Adams

Will you comfort me, in my time of need?  
Can you take away the pain of a hurtful deeds?  
Cause when we need it most, there's no rain at all  
And the dust just settles right there on the feed

Will you say to me a little rains gonna come  
When the sky can't offer none to me  
Cause I will come for you  
When my days are through  
And I'll let your smile just off and carry me

Cause when the calm comes down  
I take the truck on into town  
And buy whatever we can't seem to grow  
I work these hands to bleed cause I got mouths to feed  
And I got 15 dollars hid above the stove

Will you say to me a little rains gonna come  
When the sky can't offer none to me  
Cause I will come for you  
When my days are through  
And I'll let your smile just off and carry me

Cause it ain't like it was on back in those days  
When everyone would offer up a hand  
These old bones are worn  
I've grown tired some  
And I know my time is surely gonna come

Will you comfort me in my time of need  
Can you take away the pain of hurtful deeds  
Cause I will comfort you when my days are through  
And I'll let your smile just off and carry me

Lord we married young and stayed where we came from  
And gave those children everything we had  
Will you stay with me, in my time of need?  
Though it seems we had such little time for us

Will you say to me a little rains gonna come  
When the sky can't offer none to me  
Cause I will come for you  
When my days are through  
And I'll let your smile just off and carry me
