

Just You Wait

Ryan Adams

Hey wait up wait up
I know they're cruel
But not so fast
It's funny how she's so fucked up
She has the nerve to judge somebody else
So obviously pure

Listen up it's okay
Fuck 'em all, be yourself
You know the good ones are always the freaks
They'll all see
Just you wait
Just you wait
Let's get out of this place

And if it's too late so what
It's too late, whatever, you'll pull through
We'll hold you up
Fuck her and fuck her friends
They talk shit but they can never back it up
Bunch of assholes

Don't let go
Listen up
Look at me
Get a hold of yourself
Say "good night" and walk away
I'll walk you home it's all right
It's okay
Just you wait
Just you wait

It's okay
Just you wait
Just you wait
Just you wait

She's got these idiots
Just waiting there for her
At some idiot bar
They're waiting there for her
And when she knows
It's when you know
That she will never show
She goes to bed
Well fuck her and her friends

It's never too late
When it is, when it is
God. They will let you know
You just roll over
Go to sleep you know
You don't wait up when there's no one to wait for

Why don't you grab your shit
Let's go
It's all right

It's OK
Just you wait
Just you wait
