

Like Yesterday

Ryan Adams

I'm just staring at the moon like it was yesterday
Hmm, see my face reflected in the lights on the window in the window pane
Trees outside are still I take a sleeping pill and feel a little less pain

You're just sittin' in the sun watching the boats roll by
Boats chained to the pier
In the window boat there's a picture of a family younger in their years

Well, I saw our time come
And I saw our time go like a fog in the lights
Out on the blackening ocean side

Oo, it doesn't feel like yesterday
Oo, it doesn't feel like yesterday
Oo, it doesn't feel like yesterday
Oo, it doesn't feel like yesterday

But it's yesterday
Oh, like yesterday
