

On a Side

Ryan Adams

How can you stand them people [?] all the time?
It's like fireworks and gasoline goin off in my mind
You just tell me stop
And I can't understand it
I can see your mouth moving, nothin comin out
I don't give a fuck if I'm wrong
Cause I'm on a side
Cause I'm on a side
I'm on a side

I see people walking up and down the beach at night
I'm out on the street and the city's half undressed and losin'
its mind
The people [?] but I can't understand it
I can see your mouth moving, nothin comin out
I don't give a fuck if I'm wrong
Cause I'm on a side
Cause I'm on a side
On a side
Cause I'm on a side
Cause I'm on a side
Cause I'm on a side
I'm on a side
I used to write lyrics but that's back when I tried
Like my eggs on the side
And have some hors d'ouvres on the side
Water on the side
Yeah
