

# Power

Ryan Adams

Oh pretty baby, when you say my name  
Kick off my shoes inside of my head  
Feel my shadow how it says your name  
Rocking like a roller coaster made of sin  
I wanna make you scream, wanna make you shout  
Hands all shaking and the power is out

Run your fingers through my head  
Engine's overheating, gasoline in the air...  
Cadillac's wagon ain't got no soul  
Frame out of fire and out of control  
Listen to the morning and scream and shout  
Hands are shaking and the power is out

Red lights shining on a broken road  
Sun's going down baby, I gotta get home  
Your wheels are spinnin' underneath my thighs  
I wanna taste your tongue, look me in the eyes  
Wanna make you scream, wanna hear you shout  
Hands all shaking and the power is out

Burn my hands in the fire  
Burn my hands in the fire  
I'm burning up  
I'm burning up  
I'm burning up  
I'm burning up in the fire

I said oh pretty baby when you say my name  
Kick off my shoes inside my head  
See my shadow how it says your name  
Rocking like a roller coaster made of sin  
Wanna make you scream, wanna make you shout  
Hands all shaking and the power is out

Hands all shaking and the power is out
