

Say What You Said

Ryan Adams

Hear it coming like it's rolling in the fire
Houses in the twister, I'm underneath the eye
Will you say my name again?
I haven't heard it so good since

Say what you said
Yeah
What you said
Just say
What you said

Crimson and Clover, the radio cries
Everything is poison when there's nothing on the vine
Will you hold me, I'm not strong
Say my name, it makes me come

Say what you said
Yeah
What you said
Just say
What you said

Little fractures building in the crease
Start to look like lighting and everything's released
Will you say my name again
I haven't heard it so good since

Say what you said
Yeah
What you said
Just say
Say
What you said
Yeah
What you said
What you said
What you said
Again
Say
