Severance

Ryan Adams

Severance, the birds of leaving call to us
Yet here we stand endowed with the fear of flight
Over land the winds of change consume the land
While we remain in the shadow of summers now past

When all the leaves have fallen and turned to dust
Will we remain entrenched within our ways?
Indifference, the plague that moves throughout this land
Omen signs in the shapes of things to come

Severance, the birds of leaving call to us
Yet here we stand endowed with the fear of flight
Over land the winds of change consume the land
While we remain in the shadow of summers now past

When all the leaves have fallen and turned to dust
Will we remain entrenched within our ways?
Indifference, the plague that moves throughout this land
Omen signs in the shapes of things to come
