

# Starfire

Ryan Adams

Look up and touch the sky  
The sky releases tears  
And the world is turning white  
I'm breathless in the overkill  
Hear the way she says my name  
See the way she moves  
Just as it starts to freeze, it's snowing again in here

Starfire  
Starfire

Without leaving a trace  
I watch her disappear  
Come hold me in the rain  
Come take away my fears  
Live for how she says my name  
See the way she moves  
Something in her starts to freeze  
Oh God

And everything inside us changed  
I watched it disappear  
Touch me as it starts to freeze  
It's snowing in the streets  
Kiss me in the street

Starfire  
Starfire  
Starfire  
Starfire

Don't disappear  
Don't disappear  
Everything inside us changed  
I watched you disappear  
Touch me as it starts to freeze  
It's snowing in the streets  
Kiss me in the street

Starfire
