

Stop Talking

Ryan Adams

Really don't want let it all go
But I really think I'm gonna
But I really think I'm gonna
Bunch of pain but nothing to show
Better off without, better off without the pain

Cause whatever is wrong
You gotta fix it
Wherever you belong
Whatever is missing
Hold it in your heart
Stop talking, stop talking
Start listening

Really don't what I got left
Looking at the pavement smoking a cigarette
I like the way that you smile when your sleeping
Maybe you were dreaming
Everything is [?] that you love

Cause whatever is wrong
You gotta fix it
Wherever you belong
Whatever is missing
Hold it in your heart
Stop talking, stop talking
Start listening

Whatever is wrong
You gotta fix it
Wherever you belong
Whatever is missing
Hold it in your heart
Stop talking, stop talking
Start listening

Stop talking, stop talking
Stop talking, stop talking
