

## Summer Rain

Ryan Adams

When you close your eyes  
Is it her you're thinking of  
Is she on your mind  
When the sleep you need won't come

When you close your eyes  
Wandering the streets in pain

You dream in the summer rain  
In the summer rain  
You hold her once again

When you fall asleep  
Is she waiting there for you  
When you close your eyes  
And you lose your vital signs

Is it her that's on your mind  
Wandering the streets in pain

You dream in the summer rain  
In the summer rain  
In the summer rain  
The summer rain

She's so far away  
Her hands slipping away

The summer rain  
In the summer rain  
You hold her once again...  
You hold her once again...  
In the summer rain
