

Walls

Ryan Adams

When you count how
Light a candle and leave it by
On the edge of the bed
Where we slept
Where we read
Where we did all those things that [?]

When you can't remember what I say
Get the candle, just write my name
On your wrist with the sleeve hanging loose
Where we sleep
Where you know we did those things

Sometimes I dream
Cause I'm too bored to sleep
I dream
I
These walls
[?] to me

When you comin over all the same
And just say something
Will you say what it is?
That's too hard, that's too real
All the things inside your chest
You don't really wanna say

When you can't remember what I'm like
Light a candle and leave it by
On the edge of the bed
Where we slept
Where we read
Where we did all those things that we never said

Sometimes I dream
Cause I'm too bored to sleep
I breathe
I
These walls
We never have to leave
We never have to leave

Sometimes I dream
