

# What If We're Wrong

Ryan Adams

It gets cold at night  
Lights are blue  
Mad as hell at me  
Mad as hell at you

There's something to get  
Ain't neither one of us ever going to know  
Until we give a shit

What if we were wrong

Lights go down  
And there's nothing to prove  
So you find someone  
Or they find you  
Cause its a long way down  
To the bottom  
So bring your friends  
If you still got 'em

What if we were wrong, wrong  
What if we were wrong
