

When The Summer Ends

Ryan Adams

Another year out on the coast
Turning brain cells into toast
I don't wanna think about
Slipping off into the wild at all

Will you be my friend
When the summer ends?

Another year, I don't know how
Time is spinning round and round
Falling off this Ferris wheel
Back into the things I feel

Will you be my friend
Will you be my friend
When the summer ends?
When the summer ends
Will you still be my friend?
Be my friend
When the summer ends
When the summer ends
