

A Lonely Body

Ryan Amador

Who out there can hear me?
Am I singing to myself?
A lethal injection
Just put on the beat
Give it some emotion
Feel the motion flow through
Can you feel it
Taking over
Like a drug in your blood stream
Sonic love, spend the night
Can you feel it
Taking over
Is the song sinking deep
Melody, get me high

Yeah I can feel it in my
My body
And it's just the buzz I need
To keep from feeling lonely, feeling lonely
Yeah I can feel it in my
My body
And it's just the buzz I need
To keep from feeling lonely
To keep from feeling lone-feeling lonely
To keep from feeling lone-feeling lonely
To keep from feeling lone-feeling lonely
To keep from feeling lone-feeling lonely
Most people who were seen dancing were thought to be demons

Feel it in your feet
Let the rhythm take you
As your body meets the beat
Can you feel it
Taking over
Like a blood in your drugstream
Spend the love, sonic night
Can you feel it
Taking over
Is the sink - song - deep
High
Get me melody

Yeah I can feel it in my
My body
And it's just the buzz I need
To keep from feeling lonely, feeling lonely
Yeah I can feel it in my
My body
And it's just the buzz I need
To keep from feeling lonely
To keep from feeling lone-feeling lonely
To keep from feeling lone-feeling lonely
To keep from feeling lone-feeling lonely
To keep from feeling lone-feeling lonely
Most people who were seen dancing were thought to be demons
