

# Balloon

Ryan Amador

Head in the clouds  
You circle high  
Here under roots  
I watch you fly  
And as if in a balloon  
My heart floats to you  
My heart floats to you  
With body bound  
In gravity  
This weightless love  
Breaks free  
So as if in a balloon  
My heart floats to you  
My heart floats  
I'll send you all I got  
Pop it when you want  
Untie the bottom knot  
Just don't let it drop  
And hold it to your chest  
Let it be your jets  
And far beyond our heads  
We'll propel each other up  
Your mind's too young  
And mine not old enough  
Without a common language to speak with  
We've built a wall, we've built a wall  
But as if in a balloon  
My heart floats to you  
My heart floats to you  
My heart floats to you  
I'm sending you all I have  
I'm sending you all I have to give  
Maybe someday wings will burst out my back  
And I'll float with you  
I'll send you all I got  
Pop it when you want  
Untie the bottom knot  
Just don't let it drop  
And hold it to your chest  
Let it be your jets  
And far beyond our heads  
We'll propel each other up
