

Cavemen

Ryan Amador

(Let's be cavemen)
Can't even gaze up and see the stars
Glimpse passed the ads at who we are
This is the shut down of the digital
Get physical
We want to throw off all our clothes
And free dance around fire holes
Strip it down like we're animals
All natural
And we are craving it
Should we behave in it
Like we just want to be
Cavemen
And feel the wind on our skin
Let us be
Cavemen
And feel that free again
We want to connect live
Without screens
Travel in tribes
Breathe with the trees
Break through the concrete
Find what's underneath
We want to grow old naturally
We keep craving it
Like we just want to be
Cavemen
And feel the wind on our skin
Let us be
Cavemen
And feel that free again
We just want to be
Cavemen
And feel the wind on our skin
Let us be
Cavemen
And feel that free again
Strip it down, strip it down
Strip it down, strip it down
Strip it down, strip it down
Strip it down to basics
Feel it in your face
Running through the mud
We want space
Strip it down to earth
Heal it when it hurts
Paint with your heart
Make love in the dirt
Strip away the lines and harmonize
Find your paradise outside
Strip it down
Strip it down, strip it down
Strip it down, strip it down
Strip it down
Strip it down, strip it down
Strip it down, strip it down
Strip it down

Strip it down, strip it down
Strip it down, strip it down
We just want to be
Cavemen
And feel the wind on our wind on our skin
Let us be
Cavemen
And feel that free again
We just want to be, want to be
Cavemen
And feel the wind, feel the wind on our skin
Cavemen, cavemen
And feel that free again
Free again
